

Frontend developer/themer...and some design?

Opportunity

An exciting opportunity has arisen for a **Frontend developer** to join the Axis12 team! We're looking for a talented and driven individual who will play a key role in delivering some of the best online projects for cultural institutions including Southbank Centre, Somerset House, British Film Institute, Tate, Kew Gardens and Royal Museums Greenwich.

You will work in an Agile project management environment, will be involved in multiple projects at any one time and will work closely with a talented team to deliver top products for some truly great institutions. Your role is to work within our Frontend Team to help transform inspiring designs into beautiful and functional websites and apps.

The successful candidate will be a strong communicator, excellent multi-tasker, eager to solve problems and have strong technical skills. You will enjoy working in a team environment and thrive on varied and interesting challenges.

This is an exciting opportunity to work in an Agile environment with some truly amazing clients.

Key responsibilities

- Deliver a wide variety of digital projects working with internal teams from concept to launch. These projects can range from full website build, design tweaks or innovative product concepts
- Work in an Agile and varied way using Atomic Design tools and Living Style guides as well as more traditional methods such as transformation of pixel-perfect PSDs and PDFs
- Work with both external clients and internal product owners for incubator solutions and prototyping
- Work with external design and UX agencies to enhance product development where required

You'll have:

- Several years' experience delivering frontend solutions using CMS frameworks, in particular in delivering innovative sites for large clients and even larger brands

- A solid understanding of HTML5, JavaScript including jQuery and Vue.js, CSS3 and pre-processors such as LESS/SASS, CSS Frameworks like Bootstrap.
- A passion to build reusable code and libraries for future use
- An eye to understand the technical feasibility of UI/UX designs
- A desire to learn and improve and to gain new skills and knowledge

It would be nice if you had:

- Frontend experience on projects using Drupal 7 / Drupal 8 / Symfony / Vue.js
- Interest and experience in UX and wireframing, and visual design
- Skills in Photoshop, Indesign and Sketch
- Ability to understand, define and communicate detailed system interactions to both technical and non-technical audiences
- Excellent stakeholder management and communication skills, particularly for internal and external clients
- Self-starter with the ability to plan and prioritise workload
- Ability to prioritise effectively
- Excellent problem solver

You'll receive:

- Flexible working environment including occasional remote working when required
- Flexible start – finish times
- The chance to work on both client facing projects and internal incubator products
- Private healthcare with Vitality
- Holiday allowance that increases with longevity
- Company contributions towards gym memberships
- Optional Pension Plan
- Regular staff outings and social events (we've gone to Ibiza for the last few years!)

- Cycle to work scheme
- In-house training and development opportunities
- Well supplied kitchen with coffee machine / refreshments
- Central London location

Want to join us? Send a CV and cover letter to jobs@axistwelve.com.

Please note that only applicants who are eligible to work in the UK, will be contacted as part of the shortlisting process.

STRICTLY NO RECRUITMENT AGENCIES.
