

## Senior backend Drupal developer

### Opportunity

An exciting opportunity has arisen for a **Senior backend Drupal developer** to join the Axis12 team! We're looking for a talented and driven individual who will play a key role in delivering some of the best online projects for cultural institutions including Southbank Centre, Somerset House, British Film Institute, Tate, Kew Gardens and Royal Museums Greenwich.

You will work in an Agile project management environment, will be involved in multiple projects at any one time and will work closely with a talented team to deliver top products for some truly great institutions. Your role is to help define the technical approach and deliver valuable and inspiring websites / apps from concept to delivery.

The successful candidate will be a strong communicator, excellent multi-tasker, eager to solve problems and have strong technical skills. You will enjoy working in a team environment and thrive on varied and interesting challenges.

This is an exciting opportunity to work in an Agile environment with some truly amazing clients.

### Key responsibilities

- Deliver a wide variety of digital projects working with internal teams from concept to launch. These projects can range from full website build, design tweaks or innovative product concepts
- Lead on digital projects with internal teams and clients to help translate business requirements into scalable and performant solutions
- Deliver end to end projects, from concept to launch
- Line manage your development team, ensuring they work towards key objectives whilst following internal project processes
- Work with external design and analytic agencies to enhance product development where required

### You'll have:

- Several years' experience with Drupal, in particular in delivering innovative solutions for large clients with vast amounts of content and users

- Recent experience delivering sites in Drupal 8
- Experience operating at all parts of the stack, from infrastructure to the front-end
- Ability to understand, define and communicate detailed system interactions to both technical and non-technical audiences
- Self-starter with the ability to plan and prioritise workload
- Ability and appetite to mentor other team members
- Excellent problem solver
- Line management experience

### It would be nice if you had:

- Some experience with one or more of Symfony / Laravel / Vue.js / React/ React Native
- Experience with Apache Solr
- Excellent stakeholder management and communication skills, particularly for internal and external clients

### You'll receive:

- Flexible working environment including occasional remote working when required
- Flexible start – finish times
- The chance to work on both client facing projects and internal incubator products
- Private healthcare with Vitality
- Holiday allowance that increases with longevity
- Company contributions towards gym memberships
- Optional Pension Plan
- Regular staff outings and social events (we've gone to Ibiza for the last few years!)
- Cycle to work scheme
- In-house training and development opportunities

- Well supplied kitchen with coffee machine / refreshments
- Central London location

Want to join us? Send a CV and cover letter to [jobs@axistwelve.com](mailto:jobs@axistwelve.com).

Please note that only applicants who are eligible to work in the UK, will be contacted as part of the shortlisting process.

STRICTLY NO RECRUITMENT AGENCIES.
